This is a publication whose time has come! Because of the large number of Spanish speaking children who are enrolled religious education programs in the United States, this series offers many advantages to catechists. The format of the text books and the manuals for the catechists place information in Spanish on one side of the book and in English on the opposite page. The advantages of such a publication are many. English-speaking catechists, as well as Spanish-speaking and bilingual catechists, will find this series to be a valuable asset in their instruction efforts. Spanish speaking parents and guardians will find the task of teaching their children easier as they help them with their lessons. The inclusion of DVD and CD-Rom components makes the series especially relevant. At the present time, the series is only available up to Grade 4, but it will soon be expanded to Grades 5 and 6.
